

2026/2027 community safety draft delivery plan

Approved in principle by the Community Safety Partnership Board - August 2026

Campaigns

Additional campaigns to our staying safe resources: [Staying safe resources for you and your family](#)

Date	Action	Description	Why	How it's funded
October	E-scooters, e-bikes and the law	Deliver online advice hub, school and parent information and competition/social media to raise profile. Posters for schools/social media.	E-scooters and increasingly powerful e-bikes are becoming more popular, particularly with children and young people, but there can be confusion about where they can legally be used and what makes an e-bike road legal. Our campaign will provide clear, practical advice for young people, parents and carers about the law, the risks and the potential consequences of illegal or unsafe use. It will also encourage anyone thinking of buying an e-bike or e-scooter to check the law before they buy and make sure they understand where and how it can legally be used.	Officer time and donations
December	Stay safe at Christmas	Deliver online advice hubs and competition/social media to raise profile.	In all the merriment it is easy to forget how to protect yourself. Our much-loved annual campaign returns to remind us all how to look after our personal, home and family safety during the festive period.	Officer time and donations
March	Cycling safety	Deliver online advice hub and competition/social media to raise profile.	As the spring approaches and we all start to get fit, our cycling campaign aims to remind cyclists and other road users who to stay safe, be visible and keep your bicycle secure.	Officer time and donations
June	Water safety	Deliver online advice hub, school and parent information and competition/social media to raise profile.	As the warmer weather arrives and more people spend time outdoors, our water safety campaign will remind residents, children and young people how to enjoy our pools, rivers, lakes and other open water safely. It will highlight the risks of cold water, jumping into unknown water and swimming in unsupervised areas, alongside simple advice on what to do if you or someone else gets into difficulty.	Officer time and donations

Staffordshire Commissioner funded activity*

Date	Action	Description	Why
December	Ask for Angela	Ask for Angela city engagement and promotion campaign	Promote Ask for Angela across the city and work with pubs, bars, restaurants and other licensed venues to encourage participation, awareness and staff training. Why Ask for Angela provides a simple and discreet way for someone who feels unsafe, vulnerable or uncomfortable on a night out to ask venue staff for help. We will work with local businesses to increase awareness of the scheme, encourage more venues to participate and ensure staff understand how to respond appropriately. Promotion to residents and visitors will help ensure people know what Ask for Angela means, where they can use it and that support is available if they need it
Key dates throughout 2026/27	Taxi marshalling	City centre and taxi marshalling on key dates and events	Provide taxi marshalling on agreed key dates when the city centre is expected to be particularly busy, including major World Cup matches, Proms, the Christmas period and New Year. Why Busy events and celebrations can create additional demand for taxis and larger numbers of people waiting in the city centre late at night. Taxi marshals provide a visible and reassuring presence, help people access licensed taxis safely, manage queues and support vulnerable people to get home safely. The programme will focus resources on the dates and events where they can have the greatest impact.
During 2026/27	Stop the Bleed and knife bins	Stop the Bleed training and maintenance of knife bins	Continue to deliver Stop the Bleed training and awareness sessions, promote the annual Stop the Bleed Day and maintain the district's knife surrender bins, including the annual collection and recording of surrendered knives. Why Stop the Bleed gives people practical skills and confidence to respond to a serious bleeding emergency while professional help is on its way. Alongside this, our knife bins provide a safe and anonymous way for unwanted knives and bladed items to be removed from homes and communities. Together, these initiatives support prevention, preparedness and our wider partnership work to reduce the harm caused by serious violence and weapons.

*Further projects currently being investigated and approved via the CSP Board and subject to PFCC sign-off.

Lichfield West Midlands Traded Services funded activity

Date	Action	Description	Why
April - March	Getin2it diversionary activity	ASB diversionary activity across North Lichfield and Chasetown.	Diversionary activities in areas with higher levels of youth antisocial behaviour (ASB) to offer young people positive alternatives, reduce risk-taking behaviours, and improve community safety. These activities help build trust, develop skills, and create safer, more inclusive spaces for young people to thrive.

Ongoing activities – council direct delivery

Date	Action	Description	Why
Ongoing	Find my loved one	Launch and promote dementia wristbands project	Deliver scheme providing up to 1,000 identification wristbands, fobs and hangtags for people living with dementia, Alzheimer's or other memory-related conditions, supported by a targeted awareness and marketing campaign. Why The devices provide a simple way to help someone who becomes lost, confused or separated from their family or carer. The scheme will give families additional reassurance and help police, emergency services and members of the community identify that someone may need support and reunite them with their loved ones as quickly and safely as possible.
Ongoing	Neighbourhood Watch	Promote and grow Neighbourhood Watch across the district	Deliver a district-wide campaign to encourage more residents and communities to join or establish Neighbourhood Watch groups, working with parish councils, Staffordshire Police and local communities. Why Neighbourhood Watch helps bring neighbours together, share useful information and build stronger, safer and better-connected communities. By increasing participation across the district, we can help residents feel more informed and confident, encourage reporting and strengthen the relationship between communities and local policing.

Date	Action	Description	Why
Ongoing	White Ribbon	Continue the roll-out of White Ribbon accreditation	Continue to embed our White Ribbon accreditation across Lichfield District Council through awareness, engagement, training, campaigns and activities involving employees, councillors, partners and communities. Why White Ribbon encourages men and boys to play an active role in ending violence against women and girls by challenging harmful attitudes and behaviours and promoting equality and respect. Continuing our programme will ensure the commitment is embedded within the council and reflected in the way we work with our partners and communities.
Ongoing	Event attendance to raise profile of community safety initiatives	Holding community and attending profile raising events to increase community confidence and spread key messages in relation to community safety.	Attending and organising events to promote community safety initiatives is a key way to build public confidence, increase awareness, and foster trust between the community and local services. These events offer valuable opportunities to engage residents directly, share important messages, gather feedback, and promote available support. Visibility at these events also helps reinforce the presence of safety professionals in the area, which can be reassuring for communities and encourage greater participation in local initiatives.
Ongoing	Responding to reports of anti-social behaviour	Offering community advice, and signposting to relevant agencies. This can include managing low level anti-social behaviour cases involving privately rented or home-owner properties, that require intervention or offer mediation and delivering specific initiatives at a household/neighbourhood or community level to address issues.	This work is essential to maintaining community well-being and ensuring residents feel safe and supported in their local areas. By responding to reports of anti-social behaviour (ASB), especially those involving private landlords or homeowners, the role ensures issues are managed proactively before they escalate. Offering tailored advice and signposting individuals to appropriate agencies helps build trust, promotes early intervention, and supports long-term solutions. Delivering targeted initiatives at a household or community level further enables sustained behaviour change and empowers communities to take pride in their neighbourhoods.

Date	Action	Description	Why
Ongoing	Chairing and administrating vulnerability hub meetings .	Delivering, chairing and providing the administration for the multi-agency vulnerability hub meetings.	Leading the vulnerability hub meetings ensures a structured, coordinated multi-agency approach to supporting vulnerable individuals and households. By chairing and managing the administration of these meetings, the role helps streamline communication between agencies, ensure actions are tracked, and cases receive the right support at the right time. This work is critical in ensuring complex needs are addressed holistically, safeguarding individuals while also strengthening the collaborative efforts of local partners. We will also be carrying a review of the hub during 2026/2027.
Ongoing	Attending/ chairing multi-agency meetings	Attending an chairing the multi-agency risk assessment conference (MARAC) to address local complex cases, including domestic abuse cases. Attending the multi-agency child exploitation (MACE) hub meetings which looks at youth ASB, county lines and risks of exploitation. Working in conjunction with Staffordshire County Council on prevalent issues such as PREVENT, Protect and Prepare, modern day slavery, hate crime and child sexual exploitation.	Participation in multi-agency meetings such as MARAC and MACE is vital in addressing high-risk and complex cases, particularly those involving domestic abuse, child exploitation, and serious youth-related concerns. Chairing or attending these forums enables a joined-up, intelligence-led response to serious safeguarding issues, ensuring that victims receive timely support and perpetrators are managed appropriately. Engagement with wider strategic issues like PREVENT, modern slavery, and hate crime through joint work with Staffordshire County Council reflects a proactive and preventative stance on emerging threats, reinforcing community safety and resilience.
Ongoing	Domestic abuse case reviews	Support Domestic Abuse Related Death Reviews	Provide funding to support the delivery of Domestic Abuse Related Death Reviews (DARDRs), coordinated on our behalf by Staffordshire County Council. Why Reviews examine the circumstances in which the death of a person appears to have resulted from domestic abuse. Their purpose is to identify learning, improve how agencies work individually and together, and help strengthen the way victims and those at risk are identified and supported in the future.

Date	Action	Description	Why
Ongoing	ASB case reviews	Support and coordinate ASB case reviews	Continue to coordinate ASB case reviews and increase awareness of the process so residents experiencing persistent antisocial behaviour understand how and when they can request a multi-agency review of their case. Why Persistent antisocial behaviour can have a significant impact on individuals, families and communities. An ASB case review gives eligible victims the right to ask relevant agencies to collectively review how their reports have been handled and consider whether further action can be taken. Promoting the process will help ensure residents know their rights, while reviews provide valuable opportunities for partners to identify further action, improve our response and learn from complex cases.
March	Protect your home and car	Roll out Protect Your Home and Protect Your Car campaigns	Design and distribute practical Protect Your Home and Protect Your Car information through events, community locations, targeted leaflet drops and online campaigns. Why There are lots of simple things residents can do to improve the security of their home and vehicle. These positive, practical campaigns will give people straightforward advice they can act on, from improving everyday home security to protecting keyless vehicles. Targeted promotion will allow us to take advice directly into communities and areas where it will be particularly useful.
March	Street Aid	Management and promotion of Street Aid	Continue to manage and promote Street Aid, including fundraising, marketing, community engagement and reviewing the location of donation devices to maximise their visibility and impact. Why Street Aid provides residents and visitors with a simple way to donate towards practical support for people experiencing or at risk of homelessness. We will continue to raise awareness, support fundraising initiatives and make sure donation points are positioned and promoted effectively, helping local generosity translate into meaningful support for people who need it.
